Multiple gift bag ordering instruction:

Each Party bag is customisable

Choose one you like to start your order

How to create **multiple bags** using a spreadsheet

click '**import data**' to continue

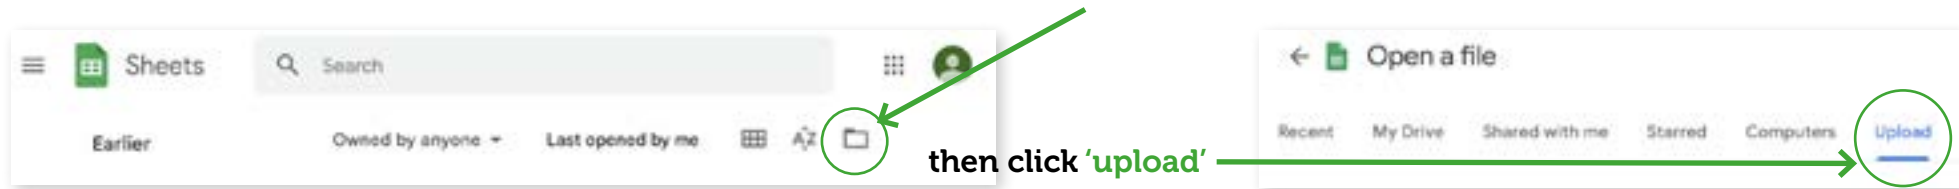

Then click '**Download Sample CSV**' to Download the Product_XXX_sample.csv file

To open the Sample.csv file go to <https://docs.google.com/spreadsheets/u/0/> (preferred software)

NOTE: older software may cause error messages.

At <https://docs.google.com/spreadsheets/u/0/> edit the file by clicking

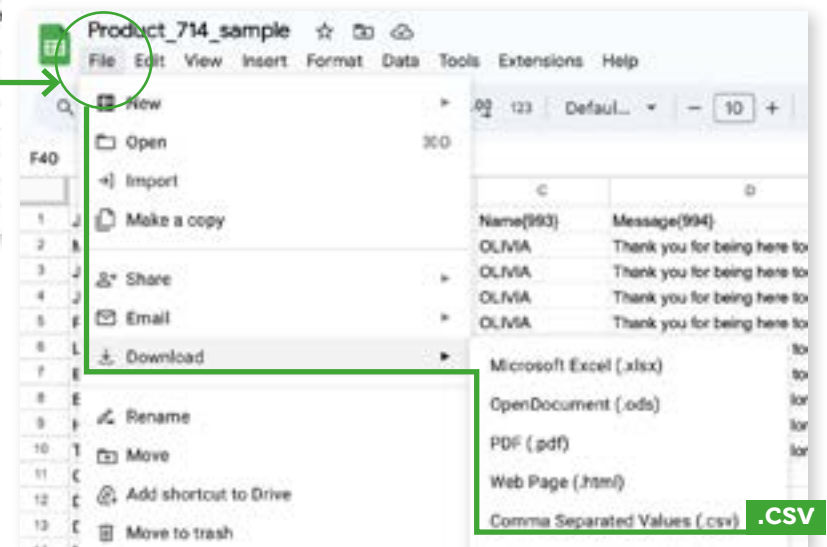

You should now have open a spreadsheet ready to type in the details you would like printed on each bag

The screenshot shows a Google Sheet with the following data:

Import Data

Import data here to avoid filling out the 'Design' or to quickly create multiple jobs/artwork files.

To import data here you must have a CSV file which conforms exactly to this sample file.

[Download Sample CSV](#)

Notes

This CSV sample is likely different for every product. If you want the data you used last time, you can find it on the job view page on the Order Manager.

Multiple jobs are added by multiple rows on the CSV.

The field 'Job Name' in the CSV file is optional, however if you leave it empty it may autofill with your name.

Upload Design Data
